

Moj Abubakr @mojroid

Junior Android Developer / London / mojroid@gmail.com / github.com/mojroid / linkedin.com/in/mojroid / Last Updated: 23rd July 2016

I'm a self-taught Android Developer from London. I'm very interested in current trends and the future of technology including wearables, VR, AR, AI, automation, design and IoT. I graduated from London South Bank University with a BEng 1st class honours in Computer Systems & Networks Engineering. I currently work at The App Business, a London based app agency as a Junior Android Software Engineer.

Skills

- Java/C++/**Android SDK, libraries and frameworks**/Android Studio/Gradle
 - Git/UI/UX/Material Design/Animation/continuous integration/Jira
 - Adobe Photoshop/logo and asset creation/Adobe Premiere/film-making/photography
 - Agile/TDD/BDD/Espresso/JUnit/Practical experience of the development lifecycle; prototyping/wireframing to publishing/shipping.
 - Dagger 2, RxJava, Retrofit. Tend to use MVC architecture pattern.
 - Currently learning Agera, Kotlin, Wear and Unity in my spare time.
 - My personal projects can be found over @ play.google.com/store/apps/dev?id=8172763766761443972
-

Work

June 2016 - Current | Junior Software Engineer (Android) | The App Business - *"The App Business is a mobile solutions company: we reimagine the business and operations of the world's leading organisations through mobile."*

- Contributing to the success of The App Business by delivering commercial solutions.
 - Contributing to design and spec discussions and planning.
 - Writing technical architecture and component specs.
 - Developing fluid, reusable libraries.
 - Engineering alpha, beta and release candidate apps.
 - Contributed to [GoDrive](#) by Ford by implementing several user stories to the Android version of the app.
-

Projects

Below are apps built in my spare time during my first year of learning to develop for Android (2015):

Will It Rain? - *"Find out when it will rain near you. Get information for every minute of the next hour, or every hour for the next 7 days; Powered by Dark Sky."* - play.google.com/store/apps/details?id=moj.rain

PAD - Public Anonymous Diary. - *"The PAD is a social platform for everyone. Share your stories with the world and be part of the global stream. No logins to mess with, so it's easy to get started in seconds."* - play.google.com/store/apps/details?id=dev.moj.pad

TIK - Easy Buy. Easy Sell. - *"The local buying and selling platform. Sell & buy locally - No login required!"* - play.google.com/store/apps/details?id=com.tiikit.tiik

Education

London South Bank University | BEng Computer Systems & Networks Engineering | 2013 to 2016

Graduated with a 1st class honours degree.
